Science as a Human Endeavour (SHE)	Nature and development of science	ACSHE098	Science involves testing predictions by gathering data and using evidence to develop explanations of events and phenomena	1 - 9
		ACSHE099	Important contributions to the advancement of science have been made by people from a range of cultures

	Planning and conducting	ACSIS103	With guidance, plan appropriate investigation methods to answer questions or solve problems	1 - 9
		ACSIS104	Decide which variable should be changed and measured in fair tests and accurately observe, measure and record data, using digital technologies as appropriate	
		ACSIS105	Use equipment and materials safely, identifying potential risks	
	Processing and analysing data and information	ACSIS107	Construct and use a range of representations, including tables and graphs, to represent and describe observations, patterns or relationships in data using digital technologies as appropriate	1 - 9
		ACSIS221	Compare data with predictions and use as evidence in developing explanations	
Evaluating	ACSIS108	Suggest improvements to the methods used to investigate a question or solve a problem	1 - 9
